Abstract:

Sometimes do you think that I would be a millionaire if I could get paid to watch TV or a smartphone with the amount of time I spend watching videos? You may watch TV to unwind and vegetate after a long day, or perhaps you are obsessed with the latest reality TV show. Whatever your consumption level is, watching TV does take up time that you could be using to make money instead.

We are providing a platform! That offers excellent potential to earn side cash for doing little to nothing except watching the box!

EroticCoin is born to reward people when they use their time watching television or other applications to give value to their time invested, from which others earn money. EOC is a single coin that operates through its application by carrying out an add on its smartphone, pc, TV, interacts with any link, video, the photo that is watched, rewarding the user via EOC.

The erotic Coin is the first Platform dedicated to value your time spent watching videos on your mobile, pc, or smart tv. This channel was launched by a team of erotic Coin and dedicated to promoting all disciplines of videos on every famous video source.

Introduction:

Neilson's new report indicated that U.S adults spend an average of 6 hours per day watching online videos and TV on media platforms, streaming services, and TV-connected devices like game consoles, Amazon Fire TV, and others. Why not get paid for those 6 hours. Watching TV or videos is an easy way to relax and unwind after a long day. Not only that, but it is also possible to earn some extra money by doing it as well! Below are some apps and websites you can use, most of which are free, to get paid for watching TV, online videos, movies, and more.

Watching television or videos, whether online or offline, is also a great entertainment source that can distract us from everyday stress. Furthermore, the extra money from watching can also help reduce stress. Whether it is the news or weather, TV and videos keep us informed about the world. A few minutes of watching or any video content can bring a sense of connection, exposure, and knowledge of the world, to not mention a few extra dollars to your household!

People who watch TV are often criticized for being lazy, addicts, and antisocial. However, a moderate amount of television can be educational, and in today's day and age, you can get paid and earn some money by watching Through erotic Coin.

This white-paper introduces erotic Coin, a new blockchain for video watching networks worldwide. Erotic Coin's mission is to help in generating more revenue from watching content. We build a new model where viewers transact directly on the blockchain, removing the need for intermediaries.

Benefits to Users:

Erotic Coin offers numerous advantages to its users; helping generate revenue by watching & sharing videos is simple and smart!

- Viewers, therefore, indirectly generate tokens by watching a channel.
- Viewers receive tokens that they can donate to others.
- The creation of a Platform dedicated to community members increases the general audience and their revenues.

What a member can get:

- Manages its Wallet
- Creates their favorite lists
- Invites their community with a subscription link to generate links

How it works: use case

A WIN-WIN SERVICE FOR EVERYONE!

Whether you are a graduate, a parent, a volunteer, a leader, a fan, or want to join a community-based approach to the collaborative economy, you can participate daily in the association of your choice by watching & sharing videos of interest to you and get an exciting return in the form of erotic coins.

EOC is a single coin that operates through its application by carrying out an add on its smartphone, pc, TV, interacts with any link, video, the photo that is watched, rewarding the user via EOC. Send EOC yourself; all you have to do is download the Pepper application and record yourself. This is possible because 80% of the tokens are blocked until the app leaves. Pepper has the function of Wallet, payments, video sharing, the possibility of making EOC gain through daily missions. Only 20% will be distributed in the ICO, 80% will be given as a premium to holders of 20%. Possibility of integrating the add-on with YouTube caliber sites, HBO GO, Netflix, Prime Video, BBC iPlayer, and any video share content site. Big-calibre partnership coming in.

BUSINESS MODEL:

Based on the blockchain, every community has a group sharing a passion for watching videos, quickly generating revenue from watching videos. As blockchain permits an accurate tracking of contribution, it also enables a direct allocation of the value generated.

With the new Platform, the community, blockchain-enabled contribution tracking, and audience valuation can establish direct relationships with the community's contributors. The blockchain platform permits fair tracking of usage and reward of the associated contribution to the stakeholders.

Benefits

- Blockchain permits direct community relationships between members.
- Marketing performance and impact become more accurately measurable.

The revenue model is based on a Freemium offer and where viewers earn tokens while watching videos.

MARKETING STRATEGY

Target Audience

One of the main results is the partnership the Platform helped build with YouTube caliber sites, HBO GO, Netflix, Prime Video, BBC iPlayer, and any video share content site. Erotic Coin is now already targeting a community who spends an average of 6 hours daily watching videos on different gadgets. As a result, we have built our marketing strategy around these audiences all over the world. Based on these numbers, Erotic Coin is developing partnerships with many video sourcing sites to generate strong growth on the Erotic Coin platform.
